### DETAILED ACTION

1. Claims 1 – 18 are pending

#### ***.Allowable Subject Matter***

2. Claims 1 – 18 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not suggest the apparatus or method as specified in Appellant's appeal. In particular, appellant's following argument is considered persuasive:" The PTO incorrectly recites a direct connection between mass storage 204B and CPU 401 Second, the PTO asserts that Lin discloses "a CPU 401 coupled directly to a mass storage device via first bus, local bus" without specifically identifying the mass storage device relied on, i.e., either mass storage device 204A, 204B, or 204C. See FOA at page 2, section 4. However, the PTO appears to specify that the intended mass storage device is device 204B with reference to the first intermediate bus coupling the system bus interface device. See FOA at page 3, Lines 1-3. This is incorrect because (contrary to the PTO's preceding statement) mass storage device 204B appears to be coupled with bus interface 402 indirectly via external memory interface 403 (Figure 4) and not directly as asserted. For at least this reason, reversal of the rejection is respectfully requested." This argument provided a detailed position that overcame the prior rejection.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
